

## News Release

For Release: 14 August 2023

### **Jodi West appointed President Director, Indonesia**

ANZ today announced the appointment of Jodi West as President Director, Indonesia. The appointment is approved by the Financial Services Authority (OJK) and is effective 31 July 2023.

Ms West joined ANZ in 2015 as Head of Institutional FX Sales, Australia, before relocating to Vietnam as Country Head in 2018. Prior to joining ANZ, she held senior roles with Citigroup and Barclays Capital, covering FX and Commodities, and was also Head of Corporate & Institutional Market Sales, New South Wales, at National Australia Bank.

Mark Evans, Head of South East Asia, India and Middle East and Country Head Singapore, said: "ANZ has been present in Indonesia since 1973. With her regional experience, commercial acumen and strong leadership capabilities, Jodi is well-placed to oversee the next phase of growth in this important market.

Indonesia is the largest developing economy in South East Asia. With its abundant supply of natural resources, and as the world's largest producer of nickel, Indonesia is uniquely placed to support our Institutional customers in their transition to net-zero. This aligns with our business strategy across the region," said Mr Evans.

ANZ has a presence in 13 Asian markets, the UK, Europe, USA, Pacific, Middle East, and its home markets of Australia and New Zealand.

According to the independent [2022 Coalition Greenwich Study](#), ANZ has been ranked #1 for relationship quality in Asia, and #1 for overall relationship quality in Singapore, Hong Kong and China by its Institutional customers.
